What Does Armorcoat Safety Film Do For You In Case Of A Blast?

Glass / Impact

Armorcoat provides exceptional blast and impact-resistant capabilities.

Flying Debris

Armorcoat reduces risks associated with broken glass and air-borne debris.

Falling Glass Shards

Armorcoat holds broken glass shards in place, helping to avoid hazard for passersby.

Post-incident Rescue & Cleanup

Armorcoat secures broken glass making the rescue and cleanup process safe and efficient.

Solar Safety Film

Armorcoat film provides you protection against the negative effects of solar radiation.

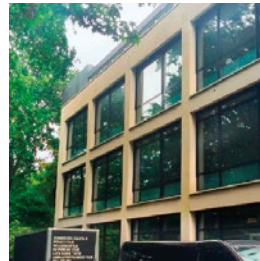

Buildings Protected With Armorcoat Safety Film

The Royal Albert Hall

No. 1 Poultry Building

The Embassy of Japan

Multiple US Government Facilities

Glass...The Weakest Link in a Blast

Armorcoat safety film from Saint-Gobain Solar Gard is applied to your existing glazing. It creates a protective barrier protecting people inside of targeted and surrounding buildings from the effects of a blast. This helps drastically increase your level of protection by reducing the risks of flying glass that can cause severe injuries or death.

What matters most to you..
